Hi [Redacted]

Yes, I'm on both groups. I haven't yet had the time to read the report, but, if I do ultimately want to make some comments, I'm happy to do so wearing both my DPTAC hats.

While I'm writing, it's worth mentioning that you'll be getting my comments on the Rail WG work plan in the next couple of days.

Brest regards

David

Hi David

I think you sit on both the Rail and R&E Group. Is that right?

The DfT Rail folk want to keep this on very tight circulation, and have asked me not to share with anyone else at this stage. Therefore, if you decide to make any comments, would you be able to do so with both your Rail and R&E hats on?

Best

Folks – please find a copy of the Steer final report on DOO / DCO research and their guidance document on mitigation of any detrimental effects. Please do not circulate this email.
I would be grateful for any feedback to be sent to [Redacted] and myself by Friday 21 September.
If you have any questions please do not hesitate to get in touch.
Regards [Redacted]

Importance: High

Hi [REDACTED]

my apologies (again) but could you please accept the attached document as the final DPTAC feedback for your request and disregard the document I sent earlier today.

I've received some further feedback from a DPTAC Rail WG colleague which has led me to amend the earlier version of this feedback I shared with you.

Best wishes,

Dave

Hi [REDACTED]

please find attached the DPTAC response to the SDG report - apologies again for missing the deadline for this.

The response is quite short as after reviewing the latest iteration of the research and guidance it would be useful to call another meeting with SDG to discuss this rather than creating an extremely long and complicated set of feedback.

One question which did arise in the review is it would be useful to ascertain how this piece of work is likely to fit in with the Rail Review that has just started. If you could let me have your thoughts on this, that would be really useful.

In the meantime, if you have any questions about the attached feedback, please do let me know.

Best wishes,

Dave

Dave – no problems. The key is to get your measured response, which it will be. So thanks, and much appreciated.

Hi [REDACTED]

I'm not going to be able to meet the deadline for this request today but will ensure that you have feedback for when you log on on Monday morning.

Apologies for this delay.

Best wishes,

Dave
